Under the Name and Firm of Rufus King & Co.

MILWAUKEE:
Wednesday Morning, Dec. 24.

Almanac and Annual Register for 1857.

We shall publish, on or about the 1st of January, No. 2 of our WISCONSIN ANNUAL REGISTER, containing, in addition to the Calendar for the year, Description of Wisconsin, List of Members of all the successive Legislatures, Tables of all the general Elections held in the State, Census of 1855 by towns, &c., &c., an Appendix, giving much other valuable matter. We propose to add to the matter contained in the Register for 1856, the Election Returns for last November, by towns—the new Apportionment Bill—the Assessment and Equalization of Property for 1856—the Vote of the Union for President—besides other valuable statistics for reference, the whole making a pamphlet of about 120 pages.

Price for single copies, 25c.; a liberal discount made to those who buy to sell again.

RUFUS KING & CO.

To Advertisers.

We shall have a few pages for advertisers in the *Wisconsin Almanac and Annual Register*, which we hope to issue about the 1st of January. As the pamphlet will be one of great value for frequent reference, it is an excellent medium for advertising. Those who desire to avail themselves of it will do well to make immediate application.

NEWS OF THE MORNING.

The apprehensions in regard to the safety of the *America* are set at rest by the arrival of the *Canada*, which brings the *America*'s mails, the latter having been detained in a storm and put back.

The *Canada*'s news is of some interest. One of the boats of the French steamer *Lyonnais* has been picked up and 16 lives saved.

See telegraph column for other items.

We have further news from the wrecked ship *New York*.

The Appleton Insurance Co. of Boston, is put under injunction.

There is trouble with the Erie City Bank again. Better refuse its bills altogether. The Exchange Bank of Bangor is also discredited.

An interesting article on the case of *Dred Scott* will be found in our columns to-day.

IN A BAD WAY.—The *News* afflicts its readers again with near a column of abuse of the *Sentinel*, out of spite because we have allowed our readers to see in what a minority it is, among the democratic papers of the State, in its admiration and support of the late Gov. Barstow. It piles up its agony by denouncing every "friend or appointee of President Pierce" who does not "loathe, detest, and abhor" such an unscrupulous, lying and venemous" paper as the *Sentinel*; and having thus relieved itself, feels better, and winds up by proposing to redeem the state from the Republicans, with whom it oddly enough associates its friends the Know Nothings. Funny *News*! It ought to be illustrated with pictures for the Holidays.

Sale of the Chicago and Alton Railroad.

According to the published notice the Chicago and Alton Railroad, including running stock, depots, lands, tracks, &c., &c., was sold at auction on the 15th. Gov. Matteson was the purchaser at $5,000. The sale is subject to three other mortgages, but it wipes out the entire subscriptions of the road—say $2,000,000. So says the Springfield *Journal*.

THE MINERAL RESOURCES OF NORTHERN WISCONSIN.—Mr. E. B. QUINER, of Watertown, has been furnishing the *Chronicle* of that city with some interesting and valuable information in regard to the mineral resources of the northern portion of this State, lying on the route of the Wisconsin and Superior Railroad. We had laid aside one of these articles for publication, but are unable to find the paper containing it. Will our friends of the *Chronicle* send us a copy of their last week's issue?

The Wisconsin condenses the statements of Mr. Quiner, in one of his articles, as follows:

"Near the Michigan side, along the proposed line of the Northeastern Railroad, is an iron bed, discovered by John Jacobs, about a mile and a half in length, 100 feet wide and a hundred feet high. Near it is an abundance of wood for charcoal, and 4 miles east are ledges of compact marble, from 10 to 60 feet high, of a pale blue color, and beautifully marked with white, green and red stripes. It can be quarried in large blocks, and is susceptible of a high polish. Slate is also found near by. The Superior ores, he says, are of better quality than those of Dodge county.—They exist in rock form, must be quarried, and furnish the toughest bar iron in the world. Of a single ridge on the Peshakame river, composed of nearly pure specular oxide of iron, which shoots up 118 feet high, he says that it 'contains iron sufficient to supply the world for ages, yet we saw neither its length nor width, but only an outline of the mass'."

AN IMPORTANT DECISION.—Judge Hoffman, of the New York Superior Court, has just delivered an opinion, which will attract the attention of produce dealers. He decides that an agreement to sell five hundred barrels of mess pork, deliverable three months after the contract, at a certain price, to be paid on delivery, where the seller has no pork in his possession or under his control, and the intention of the parties is not to deliver the article, but to pay the difference between the market value at the period of the contract and of its completion—that such an agreement is in the nature of a wager, and therefore not enforceable in a Court of Justice.

THE MICHIGAN COPPER MINES.—It is stated in one of the Boston papers that, within the past ten years, the number of companies formed for working copper mines in Michigan has been about one hundred. The amount of money invested, calculating the shares at the low average of $5 each, has been about one hundred. This sum has been obtained principally from New England, New York and Pennsylvania. Not one-third of the companies have paid dividends.—About one-half the number have collapsed, having started upon an unsufficient basis, or requiring too much capital for preliminary operations. There are, undoubtedly, profitable mines of copper in Michigan, but copper stock, both in that State and elsewhere, has been proverbially an uncertain investment.

ACCIDENT TO HON. DAVID NOBLE.—We regret to learn that this gentleman, member of Assembly elect from Janesville, has been thrown from his sleigh, dislocating his ancle, and otherwise severely injuring him

THE LUNATIC ASYLUM CASE.—We learn from the Madison *Journal* that this case has been closed, and the Commission has adjourned to Saturday of this week, when the decision is expected.

A NEW VIEW OF THE CASE.—The Memphis (Tenn.) *Eagle* gives in the following paragraph a quite a new notion in relation to the origin of the late disturbances among the negroes in that state:

There is an abolition neighborhood in Illinois, composed of several counties, which, a year or two ago, ran off all the free negroes in that part of the State, amounting to several hundreds.—These negroes went off to the iron works on Cumberland river, where they obtained employment, along with several thousand slaves, who lived at the same places. Mixing with these slaves, they sowed the seeds of revolt among them, and concocted the plan of insurrection which has just been brought to light, and for which some score or so of the ringleaders have already been hung.

The whole scheme, therefore, of murder, pillage and rapine, which might have drenched the streets of Clarksville and a half dozen other towns in blood, is traceable directly to certain Abolitionists of Illinois. These Abolitionists, our informant states, are al-o *Democrats*, and voted for "*Buchanan, Breckenridge and Free Kansas.*"

Correspondence of the Sentinel.

Dr. Boynton in Milwaukee—Lectures on Geology.

CHICAGO, Dec. 22, 1856.

MESSRS. EDITORS:—I am happy to inform your readers that arrangements have been made with Dr. Boynton, to deliver his course of eight illustrated lectures on Geology, before the Young Men's Christian Association of Milwaukee. They have to pay the Doctor a round sum for his course, but much less than he is receiving here. He must have received nearly two thousand dollars for his course, as his audience numbered two thousand every evening, and on several occasions numbers left the hall unable to gain admission. Dr. Boynton is a splendid popular lecturer—dispensing with notes, and speaking in a free, oft-hand and rapid manner, he invests his subjects with an extraordinary interest. To be able to *popularize* science, to invest rocks, and shells, and gas, and air, and water with an interest which sends one's blood tingling and thrilling through the veins, and chains the attention by the hour, is a rare and precious gift—a power which is vouchsafed to but few. Dr. Boynton is one of the few who can do this. I never heard a man who could give so much *instruction* and so much *entertainment* in so brief a space of time. One reason of his popularity, I think, is in the fact that he uses no scientific terms, but presents his subjects in plain familiar language, so that a child can understand him. There is also a vein of humor and wit running through his discourses, which affords a fine entertainment to the listener.

I heard a gentleman, yesterday, make a very just criticism between the lectures of Dr. Boynton, and Mr. Gough. He said—"You would remember Mr. Gough, but forget what he said; you would *forget* Dr. Boynton, and *remember* what he said." Dr. Boynton presents the great facts of Geology, the natural history of Creation in the Mineral, Vegetable and Animal Kingdoms, in a light so clear, and with a force of reasoning so strong, that you *cannot forget it.*

From a lengthy editorial article in the *Daily Times* of this city, upon the subject of popular lectures in Chicago, I cut the following:

We are glad, however, that among the mass of trash which lecturers are vomiting forth upon us this winter, we are able to designate one course of lectures as highly instructive and valuable. Dr. Boynton's lectures on Geology are of a class the chief object of which is to impart instruction. Entertainment is the incident, yet it is sufficient to awaken the liveliest interest and impart a high degree of pleasure to the listener, who will find on going from the lecture room that what has been said has been fixed almost indelibly upon the memory. They are by far the most entertaining, instructive and valuable lectures which have been delivered in Chicago the present winter. The lecturer brings to his subject not only a thorough acquaintance with the science, acquired from the writings and experience of others; but in a large measure the practical knowledge which can only be acquired by personal observation and inspection. From the books of men he has gone to the great book of nature, turned over its leaves of stone, and read what was written there, millions of ages ago, in characters indelible upon tablets of eternal rock. Such a lecturer is competent to appear before the public for its instruction, as well as amusement, and his teachings may be listened to with pleasure and profit, while the great mass of lectures delivered to this lecture ridden community are quite as worthless, and many of them as pernicious, as the yellow-covered trash sold in the book-stalls.

And the *Religious Herald* of this city, in closing a notice, says:—"We are glad to have some thing introduced to the people of Chicago in the shape of lectures of a higher grade than the ordinary socialism, skepticism and claptrap!"

Each of Dr. Boynton's lectures is illustrated by a series of beautiful paintings and diagrams, covering the entire end of the hall. These paintings are said to cover three thousand feet of canvass, and to have cost over *four thousand dollars*—and certainly they are beautiful specimens of art, and form a fine exhibition alone. They enable the lecturer to appeal to the sense of *sight* as well as hearing, to impress his subjects upon the memory. Your citizens will enjoy a rich treat, in listening to his lectures. X.

NORWEGIAN PAPER.—The *Emigrant*, published at Inmansville, Rock Co., Wisconsin, is the only Republican newspaper issued in the Norwegian language in this county. It has a large circulation among those not familiar with our language, and is therefore a good medium for advertisers who are interested in trade with the Scandinavians.—*N. Y. Tribune.*

The name of this paper is the *Emigranten*, and we copy the above with pleasure, and add that it is conducted with ability, and is widely influential. Our enterprising merchants will do well to bear it in mind in making up their advertising lists for the next season.

"MORAL INSANITY."—This defence has, it seems, been set up in the case of Huntington, the New York forger! It is the coolest thing on record.

Kansas—Spring Operations—Emigration—Report to be Made.

OFFICE NATIONAL KANSAS COMMITTEE, }
CHICAGO, December 10, 1856. }

The freezing up of the Missouri River has put a stop to the forwarding of goods to Kansas for the present. We have, however, succeeded in getting into the Territory about four hundred boxes and barrels of clothing, averaging in value $100 each, and mostly of the most substantial and appropriate character. This we hope, with that sent in by others, will be sufficient to meet the pressing wants of the people for clothing till the opening of navigation.

Since the closing of navigation, a large quantity of clothing has been received by the committee, and will be retained till spring, unless greatly needed this winter, in which case it will be forwarded overland, although this mode of transportation is expensive.

It will be necessary, under the most favorable circumstances, to continue aid in food and clothing to the free State settlers of Kansas, till they can raise something to support themselves.

We would therefore urge the friends of the free State cause, to continue their efforts in raising both money and clothing. Clothing should be forwarded to us by the 1st of March.

In addition to the necessity for food which must exist, it will be very essential to provide a supply of seed to such settlers as have not the means to provide themselves.

Affairs in Kansas now present a flattering aspect, and we feel confident that unless the General Government interposes *active opposition*, the friends of Freedom will attain a speedy triumph.

From every quarter we hear of preparations being made to emigrate in the spring. Already some are moving forward. This is as it should be. Emigration will settle the question in spite of every other influence. It should commence with the opening of navigation, which will be about the first of March.

The National Committee will probably hold a general meeting in New York city about the first of January, at which time it is hoped they will be able to perfect favorable arrangements for the transportation of emigrants.

A full report of the receipts and disbursements of the Committee, and of its doings generally, will be published soon after the meeting.

H. B. HURD,
Sec'y N. K. Committee.

THE CASE OF DRED SCOTT.

Correspondence of the Courier and Enquirer.

WASHINGTON, Dec. 16.

The argument of the case of Dred Scott of Missouri vs. John F. A. Sandford of New York, was resumed this morning before a full bench of the Supreme Court. Taking into consideration the state of the country, *and the purposes for which this case has been brought before the Court*, it may be well regarded as the most important that has ever been brought before that tribunal.

This case involves two admitted points, and is contended to embrace some upon which counsel do not yet appear to have joined issue. The admitted points are:

First, Has an owner of slaves the right to take and hold them in a Free State, as a sojourner, notwithstanding the laws and Constitution of the same prohibit slavery?

Second, Are the Constitutions of the States prohibiting Slavery penal statutes, which the Courts of other States are bound to enforce?

It is obvious that the second of these admitted points raises another, to wit: If the Courts of Slave States are not bound to enforce, that is, to recognize the Constitutions of the Free States, and *vice versa* the Free States are not bound to respect the Constitutions of the others, then who is? There is but one tribunal of common jurisdiction—the Supreme Court. This fact raises the question whether that Court has jurisdiction in such a case as this, which involves the rights of an individual, growing out of a violation of the Constitution of Illinois.

This is a point not suggested in either brief—But the third point which has been raised in the course of the pleadings is, whether a free negro is a citizen of any State, or of the United States, to an extent that entitles him to bring suit, by appeal or otherwise, in the Supreme Court.

The whole case may be put aside on this last ground, by the Court's deciding that the plaintiff is not such a citizen, and that they have no jurisdiction in the premises.

Last spring, when this controversy was in progress in the Court, I made the suggestion that the facts warranted the suspicion that the case had been made up by Washington politicians, in order to enlist the Supreme Court in the electioneering struggles of the day, and to procure from it a decision adverse to the Republican party and the Free States. Those grounds of suspicion have not been removed; they are in fact much strengthened by what has since occurred. The case was originally tried in the Missouri Supreme Court, wherein Dred Scott was himself the plaintiff, and Dr. Emerson, his then master, the defendant. I think the decision of that Court against the plaintiff was rendered in 1853, while the Nebraska bill was pending

And there, so far as it was a question of private property, the case was at an end. Scott and his family remained the slaves of their master, for even if he had been legally a free citizen of Missouri, he could not have appealed to the Supreme Court against a citizen of the same State. How, then was he placed in the situation of a plaintiff? By the act of his master, the controverted title to these slaves was transferred to John F. A. Sanford, of New York, and then Dred took his appeal, or rather it was taken for him, for to do these things requires money, and certainly as a slave Dred had none to spare nor to use. In Dec. 1855, just in the nick of time, for the purpose of the Democratic party, the case came to Washington, and in May 1856, it came up for argument. Had the expected decision been given, it would have been issued by millions of copies to prove the constitutionalism of the Democratic party, and the Supreme Court would be permanently arrayed as a piece of partizan machinery on the side of the Democratic party. That this is a specifically fabricated case, and fabricated for a bad purpose, I need say no more to prove. I know that it was the opinion of at least one sound Democratic and conservative lawyer, ten months ago, that the case would be thrown out of Court upon this very ground; and at that it was but half developed.

It is, of course, without any intention of impugning the correctness of Dr. Emerson's conduct in this case that I refer to the facts as shown by the record. In the vast public interests involved, all individual considerations should be lost sight of. Mr. Sandford, the new defendant, is brother-in-law to Dr. Emerson, the late master of the slaves, and son-in-law to Mr. Pierre Chouteau of St. Louis. He has recently become deranged, and is now the inmate of a lunatic asylum. The charge which the facts warrant is, that the contrivers and supports of the overthrow of the Missouri Compromise discovered this opportunity to make up a case for agitating the Slavery question in the open Supreme Court. They have fully succeeded in their purpose, and they have secured to themselves the means of continual agitation after the determination of the Presidential election had deprived them of the usual material.

I listened for some minutes this morning to the speech of Senator Geyer, counsel for defendant, and found portions of it to be exactly what the Court must habitually hear if they permit these wrangles of politicians to be introduced there. It was a stump speech on the southern side of the dispute, and it displayed a feeling not very far removed from those passionate and detestable diatribes which filled the columns of the Richmond *Enquirer* and the New Orleans *Delta* during the Presidential contest.

I will not anticipate the decision of the Court; but constituted as that tribunal is at this time, it would be a voluntary abandonment of the rights of the people of the free states, should they submit any question affecting the political rights of their section to its judgement. The members of the Court are not impartial in such a case. They cannot be. They are learned, wise and good men, but they are only men. To expect them to sit, hear and resolve, unswayed by the passions of those who placed them where they are, and by the interests of that institution which now controlled every other department of the Government, would be to suppose them more than men.

The Court has thus far disappointed the hopes of the agitators, and vindicated its own high and conservative character. It refused to throw any opinion into the political arena last summer, and from the earnestness with which the lawyers are debating the point of jurisdiction, it is evident that they apprehend that to be the chief difficulty, and think it necessary to argue against the summary dismissal of their cause.

INSPECTOR.

RIVER CLOSED.—The regular close of navigation at St. Paul may be dated this year upon the first day of December. Up to that time, no obstruction existed in our river to the daily and hourly travel of boats to and from our landing, with the exception of the gorge of a mile or two of ice above Hastings.

The ice stopped running in front of St. Paul on the night of the first, with the thermometer standing at the time at six degrees.—*St. Paul Minnesotian.*

The Shadow on the Pillow.

A POEM WRITTEN FOR THE EDINBURGH CHRISTIAN MAGAZINE.

The incident on which this song is founded, was communicated by Sir John McNeill: A Highland soldier had his arm so severely wounded that it was about to be amputated when Miss Nightingale requested the operation delayed; as she thought that, under careful nursing, the arm might be preserved. By her unremitting care, this was accomplished; and the poor soldier, on being asked what he felt toward his preserver, said, that the only mode he had of giving vent to his feelings was by kissing her shadow when it fell on his pillow, as she passed through the ward on her nightly visit:

Borne helpless from the field of fight,
Bleed deep with wounds and scars,
I prayed—"Heaven come and help the right,
And send the cruel wars."
I swooned—I dreamt an angel hand,
Bore me o'er ocean billow;
I woke, and lo! an angel hand
Was smoothing down my pillow—
Was smoothing down my pillow!

'Twixt death and life, through day and night,
My wounds unconscious kept the,
Of all, except those eyes so bright
That kindly watched and wept me.
And over me, in yon far land,
Had waved the weeping willow,
Had it not been the angel hand
That smoothed the soldier's pillow—
That smoothed the soldier's pillow!

O, earth but once heard such a tale,
So heavenly and so human,
As that of Florence Nightingale,
The angel type of woman.
What marvel that a soldier fell?
A poor but grateful fellow,
He kissed her shadow as it fell
At midnight on his pillow—
At midnight on his pillow!

The Third Congressional District of Wisconsin—The Reason for its Rapid Growth—Its Inducements to Immigrants.

The Oshkosh *Democrat* in an article called out by the enormous vote of the 3d district—nearly 50,000—writes as follows:

Situated somewhat out of the path of "the Star of Empire" in its westward course, but little, comparatively, is known of this State, especially of the Central and Northern portions of it, through the Eastern and Middle States. But little attention has been called to our prairies, our forests, our streams, or to any of the natural advantages which we so abundantly possess. While in some respects this has been a detriment to us, in others it has to this day been of great advantage to us. Speculators have not noticed us, and our lands have not lain locked up in the safes of Eastern capitalists, or been peddled out at ruinous prices to the hard fisted man, who would earn his bread and his home by the labor of his hands. Our fertile fields have mostly been open to, and taken up by the men who wished to settle upon them, who brought with them their wives and little ones, who gathered around them them the comforts of a home, and who knew and appreciated the blessings of liberty and civilization. This accounts for the high stand which Wisconsin has taken in favor of Freedom.

The *Democrat* is right. The Counties composing the 3d district have been filling up, for the past three years especially, with wonderful rapidity by the very best and the most intelligent class of settlers that the world affords, and they continue to come in an ever increasing tide.

THE REPUBLICAN FESTIVAL IN NEW YORK.—Some of the leading Republicans of New York have been enjoying themselves vastly at a Festival at the Academy of Music, on the evening of the 19th. The *Tribune* says of the affair:

The Republican Festival, under the auspices of the Young Men's Republican General Committee of this city, in commemoration of the triumph of Republican principles in the Free States, transpired last evening at the Academy of Music. The interest of the occasion was heightened by the presence of several persons who have become distinguished by their connection with the cause of human freedom in the recent struggle in Kansas and at the ballot-box. Col. Fremont was on the floor, accompanied by Jessie. They were the centre of attraction, and as they appeared they were greeted by loud manifestations of favor. With them, also, were Miss Nina Fremont and Miss Whiting, the nieces of Col. Fremont, and members of his family. Gov. Reeder was also present with his interesting daughter, and Gov. King, and ex-Gov. Patterson received a welcome from their friends. Gen. Lowry of Kansas, Gov. Reeder's Secretary, was also an invited guest.

LAGER BEER AT WAUPUN.—The Beaver Dam *Republican* has the following in relation to the extensive Brewery of Messrs. SCHROECK & REINHART at Waupun:

While at Waupun, we took the opportunity to call on our German friends, J. M. Schroeck and Reinhard, and to visit their extensive beer establishment, and test by actual trial the virtue of their sparkling Lager beverage.

They have a very large brewery, and are prepared to do a heavy business, and to manufacture as good an article of beer as can be found east or west. The large cellar is 28 feet under ground, and will hold one thousand barrels. They have two other cellars that will hold five hundred barrels apiece. They have a well sixty feet deep, and a cistern that will hold five hundred barrels of soft water. Their malt floor is 60 by 20 for growing the malt.

THE BRIGHTEST SPOT IN THE COUNTRY.—As near as we can come at the figures, the First and Second Congressional Districts in this State, (E. B. Washburne's and Farnsworth's) which occupy the northern tiers of counties, C. C. Washburne's District, adjoining in Wisconsin, and the Second District in Iowa, (Timothy Davis'), gave at the last election about *forty-six thousand Republican majority!* As no other four adjoining Congressional Districts in the United States can claim the distinguished honor of such an aggregate majority, we claim the consideration of living near the centre of the freest, most enlightened, and best civilized portions of the whole Union. —*Galena Advertiser.*

MARINE INTELLIGENCE.

THE FATE OF CAPT. HAMMOND.—We learn from a gentleman who has just reached this city from the place where the body of Capt. Hammond, of the ill-fated propeller *J. W. Brooks* was found, the following additional particulars. The body is discovered by a sailor on the shore of one of the Gallou Islands, and when discovered was lashed to a small boat belonging to the propeller.—The sailor procures the assistance of the keeper of the light-house, and the body was enclosed in a rough box with all the clothing upon it. A valuable gold watch in the vest pocket was not touched. Intelligence was sent to Ogdensburgh and Cape Vincent, at which latter place the wife of Capt. HAMMOND resides. The agent of the propeller line and the wife of the Captain came to this place and removed the body to Cape Vincent for interment.—*Oswego Times.*

PUT BACK.—The propeller *Jefferson*, which we noticed, a few days since, as having left Cleveland for this port, was compelled to put back again to Cleveland on Tuesday last, she having encountered much ice, and sprung a leak. The leak was found to be caused by the knocking in of a plug in a plank. The ice, however, would have prevented her from reaching this port. The Cleveland *Herald* says her cargo as well as that of the propeller *Northern Indiana*, will probably be forwarded by rail. —*Detroit Free Press, 20th.*

Every Man his own Miller.

PORTABLE CAST IRON GRAIN MILL.

Young America Improved and Perfected

THE above mill was patented by Charles Leavell, of Ill., Feb 27th, 1855. This mill took the first premium at the Ohio State Fair, 1855, over all other mills, and during the fairs of the fall of 1856, the first premiums over many others in the State Fairs of Ohio, New York, Tennessee, Michigan and Minnesota, also, at the County Fairs of the following Counties of Ohio and Indiana, viz Guernsey, Crawford, Logan, Medina, Ashland, Wayne, Knox, Montgomery Clark, Erie, Licking, Richland, Fayette district, Chester, Frederick. In Indiana, Tippecanoe, Jefferson, Wayne, Fayette, Shelby, Jennings, Warren and Fountain.

Farmers, Saw Mill owners, Livery Stable men and all others feeding stock of any kind are invited to examine the merits and superior advantages of the above mill

The Young America will grind as much corn in the cob, shelled corn, cobs, barley, and all other grains for stock as any mill of the same size and with much less draft

What we claim is great strength, durability and simplicity, being so simple that a child can learn to grind with safety.

In the next we claim the small expense to renew the grinding parts of the mill, and the ease with which the grinders are put on the mill, at a cost of not over three dollars, which makes it superior and more economical than any other mill The grinding parts of the above mill are made of the hardest of cast iron, as hard in fact as cast steel can be tempered Each set will grind from 5,000 to 10,000 bushels of grain, with proper usage Besides the set of grinders on the mill, an extra set will be sent with each mill sold, making it equal to two common mills. When found necessary to change the grinders, almost any one can do it in twenty minutes

As a proof of the satisfaction in which the Young America is held in Ohio, we would state that during the fall, winter and spring of 1855-56 3508 were made and sold in Ohio, at Zanesville, by Douglas Smith & Co., Hall & Allen of Mansfield, Eldridge & Fauconer of Cincinnati, and at New Philadelphia.

At this time there is not less than 900 being sold every week in Ohio at retail, besides those sold in other states east and west.

The above mills being manufactured and can be furnished at wholesale and retail, from the Wisconsin Iron Works of A J Langworthy, on the water power in the City of Milwaukee. The mill is warranted perfect in all respects.

Dealers in agricultural implements and machines, of the State of Wisconsin, are requested to call and make arrangements for the sale of the above mills, to whom a liberal discount will be made on the retail prices, also any others wishing to engage in a profitable business. Would call attention to good men who have teams, in any part of the State, who would peddle the mills through the country Four can be taken on a wagon at a time—liberal arrangements would be made with them

The above mill will grind from 8 to 20 bushels of grain per hour, in accordance with the kind and condition of the grain

Prices of the Young America $55—ready to hitch to and warranted to grind as fast as any mill of the same size when properly worked, and with less draft

For further information address or see the undersigned, sole owner of the right to the State of Wisconsin
